

## About Us

Dial Media Group has been running for over 14 years providing ISP and hosting solutions to a wide range of audiences. Our customers include private individuals, small and large companies, and a number of UK Police Forces.

We pride ourselves on being able to deliver a personal service, where you can call and speak to a real person here in the UK, with no lengthy wait in an automated telephone system. Dial Media Group has been constantly expanding in the fields of service that we can offer you from website and database design, through our range of shared, virtual and dedicated server offerings to recently hard media design and print (see [www.dialmediagroup.com](http://www.dialmediagroup.com) for more information).

Unlike many of the big-name Data Centres, we specialise in tailor-made solutions for your requirements, and are happy to take a basic requirement and turn it into a number of proposed solutions suitable for a range of budgets. We will work with you to produce a solution that is the "best-fit" for your business requirements.

We like to think we offer a premier service at a reasonable price. If this sounds like it is of interest to you, please give us a call.

DMGi: Big Enough To Cope, Small Enough To Care.
