

ISP Services :: Dial-up service

Is your internet connection critical to your business or do you want to have an alternative way to access the Internet?

Do you require dial-up access to the Internet whilst away from home in the UK?

Have broadband services have not yet reached your area?

There are many reasons why you may still require traditional Dial Up service and DMGi's Analogue Dial up service is ideal.

- No Setup fees
- No pre-registration
- No Subscription

And other then the cost of dialing an 0845 number there are no additional per minute costs.

All you need to do to use the service is plug in your modem, ensure that your phone-line has "CALLER ID" turned on and then using the standard Microsoft tools set up your modem to use one of the following telephone numbers:

0845 604 3495
0845 604 3494
0845 604 3511
0845 604 3522
0845 604 3499

When asked for your username simply enter your normal email address and the for the password use DMGi.
